1 API Calling

1.1 How Do I Handle the Error APIG.0308?

If error message "The throttling threshold has been reached: policy user over ratelimit,limit:XX,time:1 second","error_code":"APIG.0308" is returned when you call an API, it means that the number of concurrent requests have exceeded the service limit. Each service has a concurrency limit, for example the most concurrent requests that a service can process may be XX per second.

You can use the following two methods:

1. Check the code to see if there is a concurrency issue, and if there is, wait for about 2 to 5 seconds to resend the request.
2. Check the backend information to confirm if the results of the previous requests were returned before sending more requests.

If you need to support higher levels of concurrency, contact us at **Presales Support**.

2 Fine-Grained Authorization

2.1 What Can I Do If the Error Code CBC.0151, Was Returned After I Added the Condition Key, billing:cloudServiceType?

The following shows an example of a policy containing the condition key, **billing:cloudServiceType**.

NOTE

Currently, the **billing:cloudServiceType** condition key only supports the action, **billing:subscription:unsubscribe**.

Details of error code, **CBC.0151**, are shown as follows:

{

"error_code": "CBC.0151",

 Copyright © Huawei Technologies Co., Ltd.

"error_msg": "user access denied.checkCustomerPermission,correct permission code is billing:order:view"

}

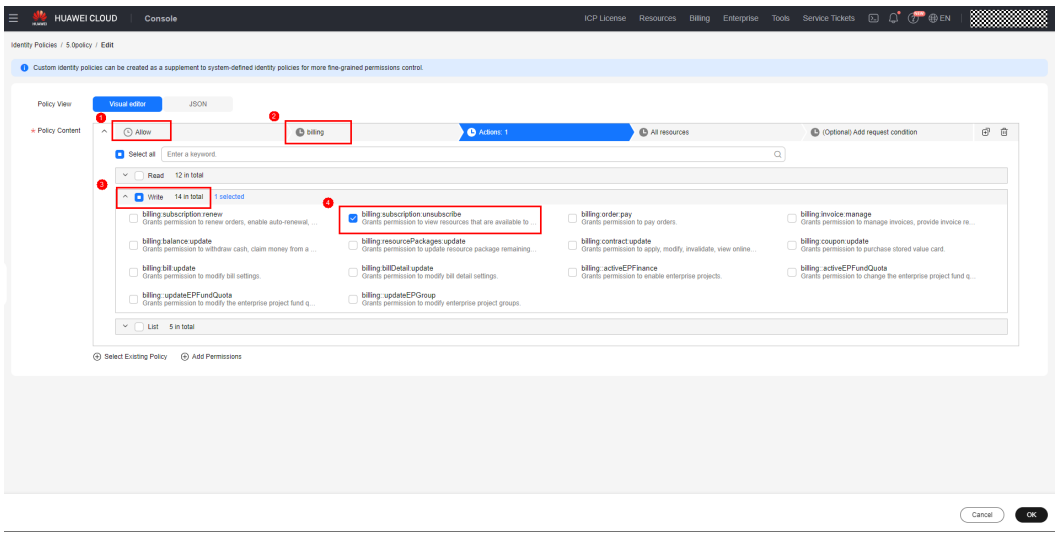
You can resolve this issue by:

Separating **billing:subscription:unsubscribe** and **billing:cloudServiceType** from other actions.

Step 1 Log in to the new console.

Step 2 Modify the policy content to separate the **billing:subscription:unsubscribe** action from other actions.

Set policy items based on the following picture.



Step 3 Add the **billing:cloudServiceType** condition key.

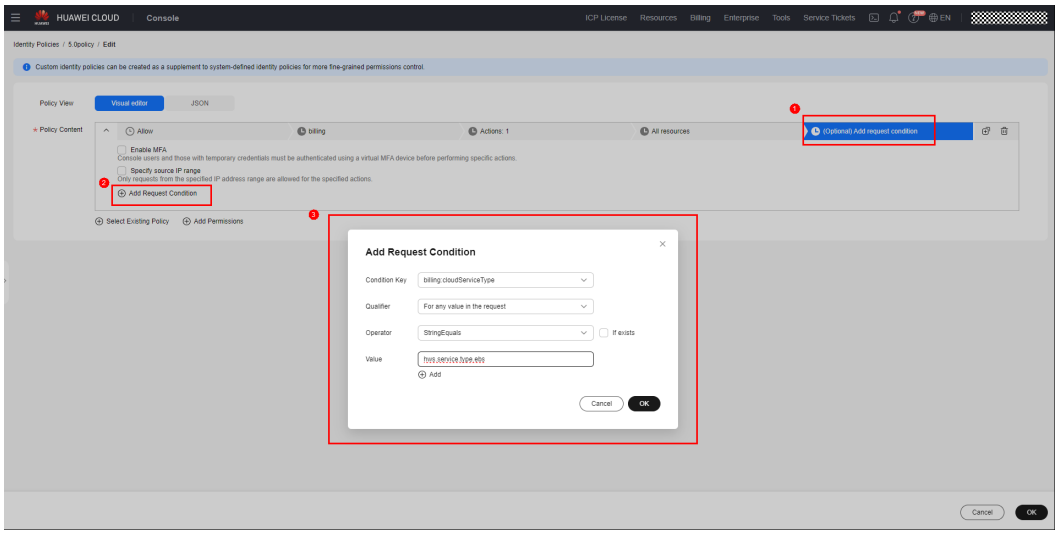
Click **(Optional) Add request condition** > **Add Request Condition**. Confiture the condition parameters:

Condition Key: **billing:cloudServiceType**

Operator: **StringEquals**

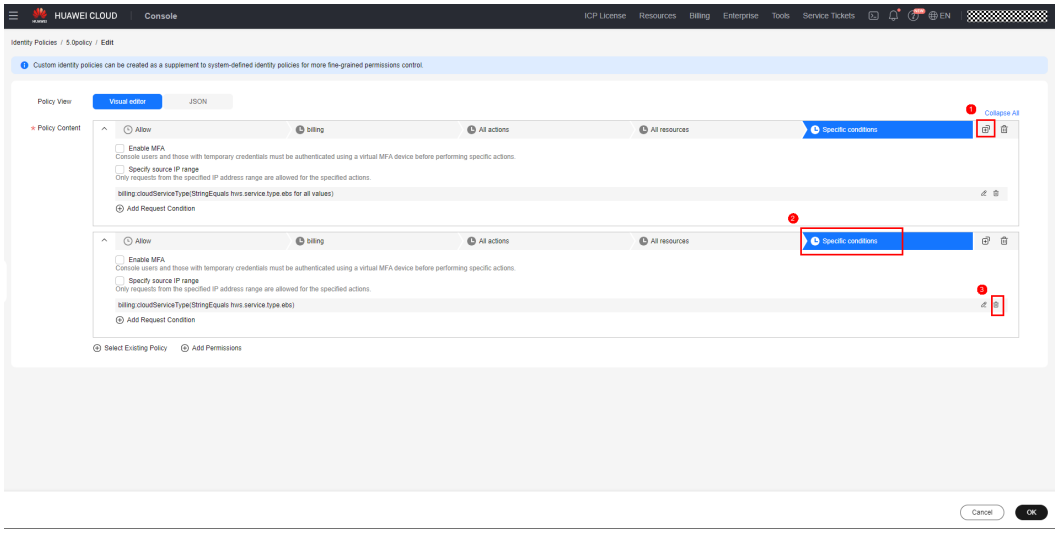
Value: **hws.service.type.ebs**

 Copyright © Huawei Technologies Co., Ltd.



Step 4 Add other actions.

Click the icon on the right side of **Specific conditions**. Delete the **billing:cloudServiceType** condition key.



Deselect **billing:subscription:unsubscribe** and click OK.
